4 ALUMNI SPEAK

Editorial

Welcome to the First Issue of the 'SBS times' for academic session 2013-14. We hope you will find this a useful update on our activities and would like to thank everyone who has supported this edition by providing useful information. A central component of this issue is salutation to the staff members of the SBS family who extended a helping hand to the Uttarakhand calamity victims.

Subsequently, this issue is a roundup of details of academic achievements, students' speak especially those who are transitioning into their next part of life and have been inducted as the youngest alumni of the Institute.

The cyclical nature of our activities and the need to keep the momentum moving forward with the ambition and enthusiasm places a significant challenge to all new members of Publication and Creative Writing Society, who have been extremely proactive.

We are looking forward to continuing this productive channel of information interchange throughout the SBS community. The future success of the SBS times depends on their comments, contributions and ideas! We do encourage all students to try your utmost best to enrich the forthcoming SBS times!

Regards
Editorial Board

Chairman's Message

EDUCATION - TO LEARN OR TO EARN

Education to be complete, must be humane. It must bring out inner peace, drawing from the living fountain of love and affectionate nurturing which is the need of the hour.

I am delighted to welcome you all to this new academic session. As we advance in our journey to achieve another milestone, I would like you to ponder for a while: Is education to earn or to learn?

The values are changing and we need to bring a paradigm shift in our attitude, in pursuit of materialistic success, the values have been lost somewhere. The need of the hour is to inculcate all those values which make human life worth living i.e. service to others, compassion for weak and needy, rising above individual interest and work for greater goodness of mankind.

I exhort all of you to use all your faculty strength, bravery and wit to achieve real results. Last but not the least, I would like to acknowledge the outstanding work done by our students and staff by organizing "Physiotherapy Seva Camp" at Gurudwara Govind Ghat. Lets work together to take full advantage of potential in all of us. Have a great learning ahead.

Thank You and wishing you a very Happy Independence day.
SP Singh
Chairman SBSPGI

HELPING HANDS FOR UTTARAKHAND Disaster

SBSPGI STAFF MEMBERS
DONATED ONE DAY SALARY FOR
RELIEF TO THE UTTARAKHAND

I can't stop my tears, who will take care of them?....this was the Facebook update by Dr. Siddhartha Sen, who was leading the six member team of Sardar Bhagwan Singh P.G. Institute of Biomedical Sciences and Research that went to the remote areas of the Kedarnath valley with the relief ma-

terial including food and daily need material . The same emotions were encountered by the team of physiotherapists who became the victims of the natural calamity that occurred in Uttarakhand on 16th June 2013. The team was stationed at Govind Ghat to provide free seva to the pilgrims of Hemkund Saheb and was rescued by the ITBP Jawans. They witnessed the magnitude of the calamity and describe the pain and sufferings that were left behind for the local people, left with no food and no shelter.

Offering a small token of gratitude, the staff members of SBS family donated one day's salary for the victims of Uttarakhand Calamity. The main purpose was to provide the relief material including food, clothes etc to the people residing in the remote areas Kedar valley.

The team was flagged off on 23rd July following the non-conventional route through Tehri-Ghansali-Mayali-Jakholi

and Guptkashi.

The team with their grit and determination overcame the hurdles and hardships of the devastated hilly terrain and finally reached on 26th July 2013 to the base camp at Narayankoti in Guptkashi Tehsil. The team interacted with the Gram Pradhans of Jaltalla, Kalimath, Trijuguninarayan, Jalmalla and other nearby affected villages. The people of this region were cut off from the mainland and were at the dearth of starvation because of the shortage of food and basic necessities. with the continued and commendable efforts of the team, the relief material was distributed on 28th July to the villagers of Jalmalla, Kabilta and Jaltalla. These selfless efforts for serving the victims are

being continued in the coming months by all the faculty and students with an aim of connecting emotionally to the calamity hit masses, for which the contributions are made in form of various commodities. To serve the mankind and responsibility towards the society is an integral part of the SBS family, continued with the same zeal and efforts as done earlier and always.

student achievements

We congratulate all the students who have given an outstanding performance and have excelled in their academic results

Batch	Rank 1st		Rank 2nd		Rank 3rd	
B. Pharm 8th Semester (Batch: 2009-2013)	Mukesh Kumar	77.5%	Harvinder Kaur	4.13%	Malvika Chawla Km. Kiran Arya	71.38% 71.38%

alumni speak

In the last two years, I have developed myself not only in academics but also in extra curricular activities and in doing that, SBS has played a pivotal role. Now, when I am finally leaving the Institute, I'll miss all those days and especially SBS UTSAV where

I used to perform in front of such a big crowd. SBS not only make one's career but transform students in a complete human being.

Sukanya Buzar Baruah
M.Sc. Biotechnology, Class of 2013

When I joined this institute, 2 years back, I didn't know what this Institute could give me. But gradually I realized that Institute became Santa Claus for me and filled my bags with achievements and happiness. The Institute gave me confidence, knowledge, position, support, affection and most recently my first Dream Job. Apart from academics, I came to know about my hidden passion for photography for which I thank the Photography Club for polishing my hidden talent. From the bottom of my heart, I extend my thanks to the Institute for making me a part of such a wonderful SBS family.

Mayuri Pachori,
M.Sc. Biotechnology, Class of 2013
