Welcome to the Department of Medical Lab Technology & Medical Microbiology at Sardar Bhagwan Singh University, Dehradun. Our college is one of the leading paramedical institutions, offering Bachelor's degrees in Medical Laboratory Technology (MLT) and Medical Microbiology, as well as a Master's in MLT, all located in Dehradun. The department has well-qualified and dedicated faculty. The department strives to impart knowledge and training to students in the latest technologies in the modern healthcare system. The objective of the department is to prepare students for a successful career in the Healthcare Industry, Research, and Academics to meet the needs of growing technology. Our efforts are to develop the ability among students to synthesize data and technical concepts for application to improve healthcare services. The department provides an opportunity for students to work as a team member or as a project leader on multi-disciplinary activities. It provides students with a sound foundation in the scientific and paramedical fundamentals necessary to formulate, solve, and analyze health-related problems and to prepare them for higher studies as well as research. We promote student awareness of life-long learning and introduce them to professional ethics and codes. Our students have recently been placed in various multi-specialty hospitals across the nation, and a significant number of our outstanding students have secured positions in government services. We are confident that our students will become assets not only to this institution and the organizations they belong to but also to the country as a whole.
