WORKSHOP ON

“SKILL ENHANCEMENT AND OPPORTUNITIES: DEVELOPMENT TO DISTRIBUTION OF PHARMACEUTICALS”

Organized by

SCHOOL OF PHARMACEUTICAL SCIENCES & TECHNOLOGY

18th May, 2024

About Dehradun

Dehradun nestled in the mountain ranges of the Himalayas, blends heritage with vibrant youth culture and a thriving artistic community combines these qualities with the cosmopolitan style of the great cities of India. It is renowned for being the ideal town for education and research. It is no wonder that some of the most prestigious world-renowned national institutes such as Forest Research Institute, Indian Military Academy, Wadia Institute of Himalayan Geology, Wild Life Institute of India, Indian Institute of Petroleum and National Institute for Visually Handicapped are located here. It is well connected by road, rail and air to almost all the major cities of the country.

Vision

Sardar Bhagwan Singh University, formerly known as Sardar Bhagwan Singh Post Graduate Institute of Biomedical Sciences & Research values and fosters an inter connected world, where all people are connected to provide superior levels of educational participation and academic excellence among the students.

Sardar Bhagwan Singh University plays a leading role in transforming the students to think and act as global citizens and build comprehensive thriving communities. The University is committed for providing an array of academic and student development services that support students success in attaining their academic, cultural and civic achievements.

Infrastructure

The University is spread over 25 Acres with total covered area of 1,75,000 sq. ft. allocated for academics and 1,40,000sq. ft. for support services. The state of the art campus accommodates different academic blocks i.e. Baba Kharak Singh Block, Prof. Puran Singh Block, Biotechnology Block, MLT Block, Administrative Block and Guru Gobind Singh Block. Other Infrastructures are Central Library, Staff Quarters, Girls & Boys Hostels.

SCHOOL OF PHARMACEUTICAL SCIENCES & TECHNOLOGY

The School of Pharmaceutical Sciences and Technology is home to budding and curious minds, which are carved with utmost care and precision, nurturing them to pursue fruitful careers in the field. The School provides a competent academic environment to the students for their personality and future moulding. This is evident through the professional achievements of its competent faculty members and students as well as excellent placements and close knit strong alumni connect.

The School came into existence in 1994, and it has trained countless pharmacy professionals, who are making a positive difference in the community.

The School has carved a niche in Pharmaceutical education and research. The discipline of Pharmaceutical Sciences and Technology offers systemic study of synthesis, analysis, formulation, standardisation, marketing and dispensing of medicine. The School offers diploma, undergraduate, post graduate and doctoral programmes. Since last two decades, the School has strengthened its research in all streams of pharmacy. The School has strengthened its research in all streams of pharmacy. Our mission is to provide dynamic education and experimental training for inculcating expertise and skills essentially required in next generation of Pharmacists, Educators and Scientists.

The School emphasizes on providing skill based pharmacy education, experimental learning as per latest requirements of pharmaceutical industries, innovative and patent targeted research, and uses smart teaching methodologies with the help of latest audio visual aids and information technologies.

Scope of the Workshop

This workshop aims to provide a holistic view on the developmental journey of pharmaceuticals from “Bench to Market”. It also aims to throw light on skills required for the same. It will also give exposure to the students on their field of choice. This workshop has got eminent speakers who will disseminate their knowledge and will guide students and equip them with the necessary skills to compete in the market. Through this workshop students will have a broad horizon of the various avenues available to them in the field of drug development and marketing.

Scope & Objectives

- To enhance and update the skills of the students of in various opportunities available in pharmaceutical sector.
- To update the skills and knowledge regarding the latest trends in drug development and marketing.

Who can Participate

Faculty/Research Scholars/UG & PG Students of Pharmaceutical Sciences
